

```
function makeTransaction(quantity, pricePerDroid) {  
    const totalPrice = quantity * pricePerDroid;  
    return `You ordered ${quantity} droids worth ${totalPrice}  
credits!`;  
}  
  
console.log(makeTransaction(3, 300));  
console.log(makeTransaction(10, 500));  
console.log(makeTransaction(1, 1000));  
console.log(makeTransaction(100, 1000));
```

You ordered 3 droids worth 900 credits!
